HILLCREST WELSH

CHOIR ENTERTAINS

The United church was well filled on Sunday night to greet the Hillcrest male choir. Most of the hymns were sung to the old-time and popular Welsh airs. Last night the above choir gave a concert at the church, which was really delightful. The programme included vocal solos, duets, quartettes, piano and violin solos, as well as several choruses by the choir and a number of dramatic readings, and concluded with the singing of the Welsh national anthem and "God Save The King." Following the concert the artists were entertained at luncheon by the members of the Ladies' Aid.

MUSICAL FESTIVAL

ANNUAL MEETING

At the annual meeting of the Crows' Nest Pass Musical Festival held at the Greenhill hotel on Tuesday, April the 23rd, the election of officers for the year 1929-30 resulted as follows:

Honorary President—Rev. W. T. Young, B.A., Calgary.

Honorary Vice-President—Mrs. D. G. Mackenzie, Calgary.

President—Mr. L. L. Morgan, Blaimore.

Vice-President—Mr. J. E. Upton, Blaimore.

Secretary-Treasurer—Mr. Frank J. Smith, Hillcrest.

General Committee: Macleod—J. W. McDonald, K.C.; Mrs. J. W. McDonald.

Pincher Creek—Mr. R. O. Allison, Miss Jackson, Mrs. Freebairn.

Cowley—Mrs. C. J. Bundy.

Bellevue—Rev. Father Donovan, Rev. J. L. Wright, Mr. William Kerr, Mr. Harry Blake.

Hillcrest—Dr. G. Blair Rose, Rev. Roy C. Taylor, Messrs. Edward Edwards, Geo. C. Cruickshank and W. H. Moser.

Blaimore—Misses McKrill and Chardon, Mesdames L. L. Morgan, J. H. Farmer and Gordon Steeves; Messrs. Robert Gray, R. W. H. Pinkney, Rev. J. W. Smith, W. H. Chappell and M. H. Congdon.

Coleman—Messrs. J. Fulton, John Cox, George Pattinson, H. T. Halliwell and W. J. Harris.

Fernie—Miss Dickson, Messrs. Wm. Dicken and Chas. Anderson.

Natal and Michel—Miss Armstrong, Corbin—Mr. D. C. Robertson.

Executive committee—Messrs. Moser, Chappell and Dr. Rose; Misses Chardon and McKrill; Mesdames Morgan and Farmer.

Finance committee—J. E. Upton, chairman; Messrs. Robert Gray, Geo. Pattinson, G. E. Cruickshank and William Kerr.

REBEKAH PRESIDENT

VISITS PASS LODGES

At a largely attended meeting of the Rebekah lodge at Coleman on Tuesday night, Sister Martin, of Hardisty, president of the Alberta Assembly, paid an official visit. Large numbers were in attendance from neighboring lodges.

Mrs. Martin will visit Crowfoot Rebekah Lodge here tonight, when a record turnout is expected. The Rebekah Degree will be exemplified.

BISHOP OF CALGARY

VISITS BLAIRMORE

Right Rev. Ralph L. Sherman, lord bishop of Calgary, paid a visit to Blaimore yesterday. In the evening a service was held at St. Luke's church, when a number of candidates presented themselves for confirmation. The service was followed by a reception and refreshments in the Elks' hall, following which his lordship joined the night train for Calgary.

SWIMMING POOL PROPOSED

At a meeting held in the Elks' hall here on Monday night, representatives of the I.O.D.E., the Elks, and the Town Council, listened with interest to a proposal set forward by Mr. G. A. Vissac, of the West Canadian Collieries, Ltd., in connection with the establishment in Blaimore of an up-to-date swimming pool. The site suggested is immediately west of the Greenhill hotel, on the south side of Victoria Street, and the structure as outlined by Mr. Vissac would cost, including heating system, in the neighborhood of \$10,000 to \$12,000, towards which his company was prepared to subscribe liberally.

If the proposition is accepted by the town council and other organizations, a competent engineer would be sent to Kimberley and other points where swimming pools are in operation, at the expense of the West Canadian Collieries, Ltd., to ascertain figures re cost, dimensions, plans, etc., following which a plan would be drafted and submitted for approval or otherwise.

Considerable funds are already in sight, in addition to which the town will be asked to subscribe.

A deputator will wait upon the next regular meeting of the Town Council with a proposition.

LOCAL BOARD OF TRADE TO AID ADVERTISING CAMPAIGN

At a meeting of the Blaimore Board of Trade, held in the office of the Crows' Nest Pass Motors on Monday evening, it was unanimously decided to accept the proposition advanced by the associated boards and bear portion of the cost of printing and distribution of 20,000 folder maps, descriptive of the Red Trail territory from Winnipeg to Vancouver. These maps are to cost in the neighborhood of \$500, cost of same to be spread over the district from Lethbridge to Cranbrook in proportion to population of the various centres.

A proposition advanced by the joint meeting to establish large signs at points near Yalo and Cardston, was also accepted. Such signs will carry maps showing the Red Trail route, as well as choice scenery.

Various other matters were discussed by the board, including tree planting and town beautification. In this connection, a committee of the board was asked to approach the town council with suggestions, which if carried out will tend to make our town more attractive to passing tourists.

It was decided to hold the annual meeting of the Board in the Elks' hall on Tuesday, May the 7th, at 8 p.m., when all members and anyone interested in the welfare of Blaimore are urged to be present. Various important matters will be considered and the election of officers for the year will take place.

PUBLIC LIBRARY

The classified books now number 1279. New books received this week are four from Mr. A. May, fifty-three from Mr. E. Dicken and six from Mr. Erikson; a total for the week of 63 books.

The following figures will be of interest to the citizens of Blaimore, showing as they do how well the Library is being appreciated and used: During the first two weeks, March 16th to 30th, we only loaned thirty-eight books. A steady increase was shown each week during April, making a total for the month of 198 books loaned. Thus during the first six weeks 236 books were loaned. We look on this as a noteworthy achievement.

The Library is open to the use of everyone on payment of a yearly membership fee of \$1.00.

Mrs. J. B. Wilson is a visitor to Calgary this week.

PAINT UP CANADA

Clean Up, Paint Up, Keep It Up --- Increases the Value of Your Property

THE SECRET of Skin and Hair Loveliness

IN THE regular daily use of Cuticura Soap and the occasional use of Cuticura Ointment, women everywhere have discovered the secret of natural beauty. The Soap, fragrant and pure, to cleanse, the Ointment, antiseptic and healing, to remove pimples and irritations. Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sample each free. Address Canadian Paper Co., T. Wall, Co., Ltd., Montreal.

WORLD HAPPENINGS BRIEFLY TOLD

Prince Henry of Prussia, brother of the former Kaiser, died recently of pneumonia.

Geza Ledovsky, a Viennese pianist, claimed a world record for continuous piano playing when he stopped seventy-five hours and fifty-five minutes after he began.

The German stand on reparations tends toward a new war. George Clemenceau, war time premier of France, said in an interview published in the Echo de Paris.

Financial conditions in the British West Indies are not very good at the present time, owing to the low price for sugar, according to R. H. P. F. Anglin, P.C., chief justice of Canada.

A special train recently carried 170 prisoners from Portsmouth penitentiary, Kingston, to penitentiaries of Western Canada. Seventy prisoners were assigned to the provincial penitentiary of Manitoba and the remainder went to Saskatchewan.

Ching Ming King, Chinese, convicted on a charge of unlawfully importing opium into Canada, was sentenced to six years in the penitentiary by Mr. Justice D. A. McDonald, presiding at the spring session of the Nanaimo assizes.

An application by the Canadian attorney-general's representative to the privy council to fix June 17 as the date for hearing of an appeal concerning the validity of the Canadian fisheries act was opposed on behalf of the provinces of British Columbia and Quebec.

Fueled because of asserted rudeness by American immigration officials at Vancouver, B.C. Sir Rakin-dranath Tagore, noted Hindu poet and philosopher, declined to leave his ship, the liner Tathia Maru when she docked at San Francisco en route to Japan.

Increase in Gold Supply

Was Greater By Sixty-One Million Than Amount Mined In 1928

Gold holdings in the United States at the end of 1928 were reported by the federal reserve board in the April issue of its bulletin to have been 37.6 per cent. of the world's total, which amounted to \$9,981,000,000.

The total gold supply was compiled from reports transmitted to the board from 40 countries and shows that the increase in gold of \$460,000,000 in a year was greater than the amount of gold mined during the year by about \$61,000,000. The increase was made, the report said, even though about \$80,000,000 was absorbed by Great Britain and an unknown amount taken away for industrial consumption.

The bones of an average man weigh twenty-five pounds.

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sour. The corrective is an alkali which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 60 years since its invention. One spoonful of this harmless,

tasteful alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude medicine again once you learn of efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Airplane On Submarine

Big Innovation Has Been Added To Italy's Newest Craft

Italy's largest and best equipped submarine, the Franco Tosi, has been launched at the dockyards at Taranto, Italy. The submarine has two 3,000 horsepower Diesel engines of special design which can be used separately or together, and which give a surface speed of 19 miles an hour. Two electric motors of 1,000 horsepower each propel the submarine at a speed of ten miles an hour under water.

The submarine's artillery is one anti-aircraft gun and several machine guns. The submarine is to carry a seaplane in a large tube adjoining the turret, a big innovation in submarine technique. The tube is able to resist over 300-foot depth water pressure.

THESE SIMPLE RULES MAKE TEETHING EASY

Be careful of Baby's diet during teething. Do not overfeed him. Watch his stomach and bowels and at the first sign of indigestion, gas or constipation, give him a few drops of harmless, pleasant-tasting Fletcher's Castoria. These simple rules are making teething easy on millions of babies—and mothers, too. For over thirty years Castoria has been the trusted standby of mothers everywhere. It soothes wakeful, cross babies to sleep quickly and easily—and it's purely vegetable so you can give it as often as needed. It does the work of castor oil better and more gently. For your protection, the bottle of genuine Castoria always bears the Fletcher signature.

Draws Attention To Peace River District

Has Room For 2,000,000 People Says Major-General McTear

Major-General A. D. McTear will again draw the attention of parliament to the colonizing possibilities of the Peace River country. His visit to that area last year has more than confirmed his previously expressed opinion that 2,000,000 people can find homes for 400,000 farms of 240 acres each. General McTear will urge greater railway facilities, modern methods of preparation of scrub land and national colonization and settlement policy extending over ten years.

Minerals In Alberta

Alberta is famous for its vast resources of coal, for the rapid development of its oil and gas resources, and for the extent of its unique deposits of bituminous sands.

The oldest steamship in the world is said to be the barque "Constance," built in 1723, and now in use as a training ship at Copenhagen.

Canada's Forest Products

One freight car in every six in Canada is loaded with forest products.

These are youthful British settlers coming under the auspices of the British Immigration and Colonization Association. They are seen listening to a few words of welcome before they landed in Canada this spring from the Anchor-Donaldson Liner "Athena."

SUNDAY SCHOOL LESSON MAY 5

WHAT HILKIAH FOUND IN THE TEMPLE

Golden Text: "Thy word is a lamp unto my feet, and light unto my path."—Psalm 119:105.

Lesson: 2 Chronicles 34:33.

Devotional Reading: Psalm 107-14.

Explanations and Comments

The Temple Repairs Which Led To The Finding Of The Book Of The Law, verses 8-13.—When twenty-six years of age, Josiah turned his attention to the ruined temple and had it repaired. He placed in charge of the work the governor of Jerusalem, the official secretary and the official historian. They handed over to Hilkiah, the high priest, the money which the people brought to the temple, and gave to the Levites who were appointed to receive it. The overseers and Levites, other Levites encouraged the workmen with music; yet other Levites were scribes and officers and porters. This is believed to be the third temple and had it repaired. He placed in charge of the work the governor of Jerusalem, the official secretary and the official historian. They handed over to Hilkiah, the high priest, the money which the people brought to the temple, and gave to the Levites who were appointed to receive it. The overseers and Levites, other Levites encouraged the workmen with music; yet other Levites were scribes and officers and porters. This is believed to be the third temple and had it repaired.

The Finding Of The Book Of The Law, verses 14-18.—During the work upon the temple, Hilkiah, the priest, found the book of the law of Jehovah given by Moses. This is believed to have been the legal portions (chapters twelve to twenty-six, and chapter twenty-eight) of our Book of Deuteronomy, which calls itself "The Book of the Law" and also "The Book of the Covenant." Some scholars believe that this had been known, but had been forgotten during the idolatrous reigns of Manasseh and Amon, and Hilkiah found the copy in the temple and read it to Josiah for the first time. Others hold that it was "a new and enlarged edition of the Book of the Covenant prepared for the needs of the times, and brought forth now because Josiah was a righteous king and would enforce its decrees." Dr. George Adam Smith points out that it is precisely from this time onward that the style and phraseology which are characteristic of Deuteronomy begin to affect the literature of Israel.

The Effect Upon Josiah Of The Reading Of The Book Of The Law, verses 19-21.—After telling the king that the work upon the temple was progressing well, the money had been given to the overseers and the workmen put at work, Hilkiah spoke about the newly discovered book and read it aloud (the entire roll, according to 2 Kings 22:10). On hearing of words the king rent his robes in token of his troubled mind. "For," he said, "great is God's wrath against us, because our fathers have not done as this book commands." If we would see the effect the book must have had upon the susceptible soul of Josiah, we are advised to read chapters 22-28 of Deuteronomy ourselves with Josiah and his times in mind. The book contains explicit directions as to worship and conduct and the penalty of national disobedience decreed was the loss of home and country. "For many generations' warnings and precepts alike had been neglected, and when the day of doom should come, the sins of the fathers also would be visited upon the children. Could the doom be averted by speedy and complete obedience and penitence?

"It is not enough to read our Bible. Its messages must be heeded. Learn and observe these words found in an old Bible: When thou readest what here is writ, Let thy best practice second it; So twice each precept read shall be— First in your books and next in thee.

WELCOME TO CANADA

These are youthful British settlers coming under the auspices of the British Immigration and Colonization Association. They are seen listening to a few words of welcome before they landed in Canada this spring from the Anchor-Donaldson Liner "Athena."

Make Your Priming Coat

By a primary coat is meant the first, or primary, coat of paint or varnish on any surface of wood, metal or plaster. The first object of the priming coat is to stop most of the suction, present to a great extent in wood and plaster, so that the finishing coats will stand out with a uniform degree of gloss, or, in the case of flat-wall paint, with a uniform degree of flatness.

The Care Of Books

Many women who take beautiful care of their clothing and their kitchen utensils, their linen closets and their refrigerators, are careless about those choicest treasures of the home—the books. We are all apt to stick books away in bookcases or on open shelves and forget all about them except to whisk an occasional duster along the fronts of the shelves.

Books need just as much care as rugs, household linens, and fine leather shoes. If they are to enjoy long life and keep their shape and their freshness. Dust accumulates on book shelves almost more quickly than anywhere else in the house, or at least it seems to, perhaps because there are so many edges exposed to the sweeping dust particles.

The light wood or feather duster should be used daily, and at least once a month, every book in the house should have individual care. Take it down and wipe off the cover and the tops and sides of the pages. Many little-used books have a yellowed edge of dust along each page, which could be avoided if they were wiped off frequently. If you have choice leather-bound books in your collection, whether sheepskin, calf, or morocco, give them a light coating of pure neatfoot oil once a year, to preserve the leather.

Keep all books out of the direct rays of the sun. This dries out the glue and tends to loosen the binding and will dislodge the glue of the colored cloth covers. Another way to keep books in good condition is to see that they stand upright at all times, whether between the book ends or on the shelves. A book tipped sideways gets its covers pushed out of shape and tends to come apart. If books do not support each other by standing close together, a small japped book end may be inserted here and there on the shelves. The way a new book is opened has much to do with its future health. By opening a few pages at a time and gently pressing them back, the books will not be broken nor will the glue and the stitching be strained. A book that is grabbed and cracked open violently may be permanently injured.

Doctor (angry because patient has not followed his advice): "You are still drinking strong coffee three times a day. Now, I'm warning you that if you keep this up for another half year you'll be dead inside eight days."

She: "I've just spent ten dollars on a canary."

He: "That's nothing. I spent twenty-five on a lark."

Make Your Priming Coat

By a primary coat is meant the first, or primary, coat of paint or varnish on any surface of wood, metal or plaster. The first object of the priming coat is to stop most of the suction, present to a great extent in wood and plaster, so that the finishing coats will stand out with a uniform degree of gloss, or, in the case of flat-wall paint, with a uniform degree of flatness.

In this connection, please note that no such uniformity can be obtained until the porous nature of the surface, of suction, has been satisfied. In the case of metal surfaces the degree of suction, or porosity, is far less noticeable; therefore, such surfaces will naturally call for a different priming treatment.

The second object to be aimed at in the first class priming coat is a proper degree of penetration of the face, so that the paint will to the greatest possible extent become a part of the surface—not merely so much pigment and oil spread out on the book and insecurely bound to the surface.

Bearing these objects in mind, the salesman will readily understand that a thick priming coat cannot possibly be a good priming coat. Why? Take the first object outlined above. If a thick priming coat is applied on wood or plaster the porous nature of the surface will suck away most of the oil from the paint, which, mind you, needs just this quota of oil to bind it and form a good film. The result is, that instead of having stopped the suction, you have merely superimposed another surface, porous in nature because it has been deprived of too much oil and insecurely bound to the surface for the same reason—and that also kicks the props from under our second support—the second object.

So we arrive at the natural and logical conclusion that priming coats on wood and plaster must be this coats—it is almost impossible to get them too thin. If a priming coat can be said to be too thin, such a claim can only be advanced from the covering or hiding viewpoint—a defect which can be easily remedied by an additional coat. But if too thick a

priming coat is applied, a dozen coats will not cover up the blunder, because it will be exposed by the almost inevitable result—peeling of the paint from the surface. When in doubt—thin priming coats.

Literature On Farming

Some Must Turn Out Ear To Educational Matter Supplied

When one reads of the poor methods that are used in farming by a number of men who are engaged in that profession, one is tempted to wonder whether the enormous mass of educational matter that is being run from presses and the multi-graphs by the department of agriculture is reaching the proper quarters, or whether the farmer turns a deaf ear to the good advice and goes on with his dirty seed, his scrub herd, his rusty shoats and his unprofitable poultry run, out of sheer cussedness.

Tallest Building

Construction has begun on the Marine Building in Vancouver, which, when completed, will be the tallest building in Canada west of Toronto, towering 18 stories above the northwest corner of Burrard and Hastings Streets.

Dean (to Frosh): "Do you know who I am."

Frosh: "No, I don't, but if you can remember your address, I'll take you home."

"Have faith in your fellow man," says a paragraphist. But be sure you get his signature on the dotted line.

From the extreme south point of Texas, due north to the boundary of the United States, the air line is about 1,600 miles.

It would cost more than \$250,000,000 to duplicate the Great Wall of China, engineers estimate.

CHAPTER XVIII—Continued

Donald's heart ached for this man, whose great love for his wife was as passionate at this moment as when she was living. "How he loved her!" he thought.

When Walnwright spoke, again his voice was spiritless. "You are the first person to whom I have spoken of my past; even Constance does not know." As he turned to leave Donald gripped his hand in silence, but with a pressure eloquent of heart-felt sympathy.

Andy had noticed Donald's increasing interest in Constance and had wisely refrained from accompanying him on his nightly visits. On this particular night, Donald came into the kitchen whistling a lively air, his face wreathed in smiles. He slapped Andy heartily on the back as he asked him for a lunch. His gale was so pronounced that Andy studied him closely.

"You look 'appy, Donnie," he remarked. "I am, Andy. I'm the happiest man in the world."

He finished eating, then sat staring dreamily at the smoke of his cigarette as it circled about his head. Andy discoursed lightly on various subjects, but Donald did not seem to hear him. After he left Andy heard him singing merrily in his cabin.

"Strike me pink, but I do 'ope Donnie has 'waked up! What a pair, what a pair!" he said to himself. In the morning Donald rode north on the gas-car to the scene of logging operations near the upper lake. He left orders with the men to bring Walnwright's baggage to the station. What Constance's absence would mean was brought forcibly to him as he met the trapper leading Pegasus and her pet deer down the trail to his cabin.

Two hours later Constance and her father stood in the station platform. "You look 'appy, Donnie," he remarked. "I am, Andy. I'm the happiest man in the world."

He finished eating, then sat staring dreamily at the smoke of his cigarette as it circled about his head. Andy discoursed lightly on various subjects, but Donald did not seem to hear him. After he left Andy heard him singing merrily in his cabin.

Two hours later Constance and her father stood in the station platform.

To Check "FLU," Grippe

Fights the Germs in the Throat Before They Invade Other Parts of the Body.

EFFECTIVE PREVENTIVE MEASURES EXPLAINED

Simple precautions taken now will enable you to fight dreaded "Flu" which is sweeping rapidly through the whole country. The germs of influenza gain access to the body through the mouth and throat. Keep the throat healthy and you go a long way towards stopping the trouble. An effective means of prevention is to gargle the throat three or four times daily with Nerville's. Half a teaspoonful of Nerville's in water makes a most efficient gargle. The germ-killing properties of Nerville's quickly destroy any bacteria in the mouth or throat. If the chest is sore, if the throat is hoarse, if you have a cough—be sure, to rub the neck and chest with Nerville's. Every drop of it will rub in, and out will come the congestion.

Of course, it is absolutely necessary to house-clean the system with Dr. Hamilton's Pills which stimulate the eliminating organs, and rid the system of disease-breeding wastes. This combination treatment of Nerville's and Dr. Hamilton's Pills will give prompt and entirely satisfactory results.

Andy stood with arms folded. "Gone?" he yelled, "of course it's gone. Why in 'ell want you 'ere?" "I had to go up the line to look over some logs, and the car broke down," replied Donald bitterly. "Of course," Andy with withering sarcasm, "the timber couldn't 'ave waited another day."

"Andy," asked Donald excitedly, ignoring the remark, "did Constance leave you here, address?" "Why the 'ell should she give me 'er address? Aven't you 'er address?" was Andy's unaccommodating reply.

"No, I haven't, I know that they are going to England, and that is all."

Donald sat down dejectedly. Andy's face softened. "Do you like Connie?" he queried.

"Like her? I love her!" "To that case I don't see 'ow she didn't let you know where to find 'er," puzzled Andy.

"She doesn't know that I care for her," said Donald gloomily.

Andy's mouth opened. He seized Donald by the shoulder. "Do you mean to tell me that you let that girl get away from you without letting 'er know that you wanted 'er?" he demanded indignantly. "Strike me 'andsome!" blazed Andy, "of all the blinkin' mutts in this 'ere world—you—"

"You let that dear little girl go away broken-hearted," "Andy," interrupted Donald eagerly, "do you think Connie cares for me?"

For a moment, as he looked into his friend's face, Andy was tempted to tell him of the scene after his fight with Hand. But the promise to Connie sealed his lips.

"Ow the 'ell should I know?" he mumbled. "But," he added with fine sarcasm, "if bone was ten cents a cubic foot, you'd be a multi-millionaire, you blinkin' pie-eyed nincompoop—you—"

He clapped a tragic hand to his brow. "You give me a 'eadache," and muttering to himself, he trudged up the hill. The next day Donald went to Vancouver. He scanned the registers in hotels, inquired at docks and depots, but no trace of the Walnwrights could be found. He walked the streets with a forlorn hope that he might meet them. The hearts of many slender golden-haired girls were set fluttering that day as a tall, handsome young man subjected them to a close scrutiny.

Two days later he returned to the lake. That night he switched off the light and sat by the open window looking out on a night of stars, with a new moon making a ghostly light on the lake. An owl's mournful hoot was answered by the uncanny cry of a heron. The faint sighing sound of streams in distant gorges became a haunting chorus to this duet. He thought of Connie's cabin up the mountain, now cold and dark. How he would miss her! What an idiot he had been not to have known long ago that he loved her. He knew now that he had loved her from the first. Dear little Connie!

Donald walked the floor until midnight. Once in bed, he tossed restlessly until the early morning, then fell into fitful sleep in which he dreamed of a small, winsome face and big blue eyes surrounded by a wealth of golden hair.

September with its days of mellow sunshine passed. October brought heavy hoar frosts that covered the earth with a robe of diamonds, and formed ice in the small pools and marshes. Winter came early in the mountains. In mid-winter the valleys between the peaks of the Coast Range will have five feet of snow when, a few hundred feet below, the warm waters of the Pacific lap the gentle slopes, the grass is green and there is none of the chilly whiteness that mantles the towering hills above.

There came a day in November when the air held a solemn stillness. The fire and plumes pointed straight to the sky without a quiver in their branches. The brown earth seemed to say, "I am ready." The cry of the loon in it had a dreary sound, a note which seemed to say that winter was coming. Squirrels working in the tops of big pines increased their efforts. The cones, nipped off by their sharp teeth fell pattering to the ground; to be gathered by these busy little workers and secreted in their nests in hollow trees. The hear of the hillside atop the frozen berry or the pulp of rotten log to cleanse its stomach before starting its long winter sleep in windfall or cave. Thus does Nature give to the wild things of the forest an instinct unknown to man.

(To Be Continued.)

The longest railroad run is from Riga to Vladivostok, 8,500 miles.

Minard's Liniment relieves pain.

W. N. U. 1758

Milk Exports
Canada exported over nine million dollars worth of milk and its products for the twelve months ended February 28, 1929, an increase of three million dollars over the previous corresponding 12 months.

A GREAT PUZZLE TO CAREFUL PARENTS

One of the greatest puzzles to the careful parent is to know just what medicine to give the little ones. When the child falls ill with griping pains; is seized with cold or fever, refuses food or vomits what he has taken, when he cries a great deal and cannot get the sleep so necessary to the growing child, the parent is in a quandary. What is to be done on such occasions? As often as not there is not a suitable medicine in the house. The puzzle is to what to give him to set him right quickly. It is to most such emergencies that Baby's Own Tablets were designed. These pleasant little Tablets quickly reduce fever, break up colds, relieve constipation and indigestion and allay teething pains. They quiet the nerves and promote restful health-restoring sleep. They are guaranteed absolutely harmless and safe for even the youngest and most delicate baby.

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Lobster Industry in Canada

Lobstering is a distinctive industry. In 1920, there were three lobster canneries on the Atlantic coast of Canada; in 1927 the canneries numbered 438, and gave work to 6,186 people; 30,000,000 lobsters is a normal catch.

An Oil For All Men.—The sailor, the soldier, the fisherman, the lumberman, the out-door laborer and all who are exposed to injury and the elements will find in Dr. Thomas' Electric Oil a true and faithful friend. To ease pain, relieve colds, dress wounds, subside lumbago and overcome rheumatism, it is excellent. Therefore, it should have a place in all home medicines and be amongst those taken on a journey.

New Author: Could you use my story if I were to tell it down?

Editor: No chance. Boli down a gallon of water to a pint and it would still be water, wouldn't it?

Little Helps For This Week

"I know the thoughts that I think toward you, with the Lord, thoughts of peace and not of evil, to give you an expected end."—Jeremiah xxxix. 11.

His perfect plan I may not grasp; Yet I can trust Love Infinite, And with my feeble fingers clasp The Hand which leads me to the light.

My soul upon His errand goes; The end I know not, but God knows.

Every human soul has a complete and perfect plan cherished for it in the heart of God.—a divine biography marked out which it enters into life to live. This life, rightly unfolded, will be a complete and useful whole, an experience led on by God and unfolded by His secret nurture, as the trees and the flowers by the secret action of the world. We live in the divine thought. We fill a place in the great, everlasting plan of God's intelligence. We never sink below His care, never drop out of His counsel.—Horace Bushnell.

Weather Heads the List

Stratford Editor Finds It Most Widely Read Article

What is the most read section of a newspaper? Sports writers will say their page; editorial men will press the claims of the editorial page; reporters will be certain to assert that they have first place with local stories, while we have no doubt that the lady editors will be quick to claim precedence for the women's page.

All wrong. One day last week the weather, through an error, was left out of the paper, and we had more calls over the omission of that little item than anything else that has ever happened.

An Oil That Is Praised Everywhere.—Dr. Thomas' Electric Oil was put upon the market without any flourish, over fifty years ago it was put up to meet the demand of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Preservation Of Eskimo

Tribute was paid to the Dominion Government, the Royal Canadian Mounted Police and the Hudson's Bay Company, for the splendid work being done for the preservation and the well-being of the Eskimos, by Mr. Archibald A. L. Fleming, appointed recently to take charge of Anglican mission work in the Arctic.

Minard's Liniment—good for tired feet.

Many railways in Germany are being electrified.

IT'S folly to suffer long from neuritis, neuralgia, or headaches when relief is swift and sure, thanks to Aspirin. For 28 years the medical profession has recommended it. It does not affect the heart. Take it for colds, rheumatism, sciatica, lumbago. Gargle it for a sore throat or tonsillitis. Proven directions for its many uses, in every package. Every drug store today has genuine Aspirin which is readily identified by the name on the box and the Bayer cross on every tablet.

CASPIRIN

Aspirin is a Trademark Registered in Canada

Capital Invested in Irrigation

Construction costs of ten major irrigation projects, now operating in southern Alberta amount to about \$31,800,000, or an average cost of approximately \$31 per acre for the area of slightly more than one million acres.

Corns cripple the feet and make walking a torture, yet relief is at hand in the shape of Holloway's Corn Remover in within reach of all.

Floorwalker (rebuking assistant for "contradicting" a customer): Miss Jones, remember, in this establishment the customer is always right."

Miss Jones: "Well, sir, she said you were an old 'share'."

COMPLEXION IMPROVED QUICKLY

Look for the salient features of the complexion. Instead of spending many dollars on fancy creams and skin lotions, buy a 25c box of Carter's Little Liver Pills and remove the constipation poisons. Your skin will be quickly cleared, and your health improved. All Druggists and The red pack. CARTER'S LIVER PILLS

In the sky and on the highway a modern motor, developing greater power and operating at higher speeds, demands better lubricants. Marvelube was developed to meet this demand. It is a better motor oil because it is made by better methods from a better grade petroleum.

Produced by the Special Marvelube Distillation process, it is free from injurious sulphur and costly carbon. It has remarkable life, and because it is manufactured under the constant supervision of Canada's most expert refining technicians you are sure of unvarying quality and unending satisfaction.

Directly operators, the most exacting buyers of oil, prefer Marvelube because it has been proved in actual service that it affords longer intervals between engine overhauls.

Marvelube insures smoother performance, longer engine life and lower operating costs for any car, old or new. There is a grade of Marvelube refined to meet the exact requirements of your car. Consult the Marvelube recommendation chart at good dealers or at Imperial Oil Service Stations.

O'BRIEN IS COP IN "BLIND-FOLD," NEW FOX FILM

Again in a strong, handsome and heroic role, George O'Brien will be seen when the Fox production of "Blindfold" comes to the Orpheum theatre Tuesday next only.

This time George is a policeman, a role he long wanted to play. This actor should know his policemen, having been reared in the shadows of the San Francisco police station. His father is chief of police there.

"The average citizen," George said when production of the film started, "looks upon a cop as a necessary evil—the kind that talks out of the corner of his mouth and indulges in the atonement of his 'pinches.' I want to show him as I know him—a good soldier obeying his superiors, and offering his body as a buffer between you and the rough side of life.

"My father is much interested in this role of mine and is assisting me in my interpretation. Police work is his one fad in life, and naturally he

is anxious that I give the real 'low down' on police methods."

The leading feminine role in "Blindfold" is played by the petite Lois Moran of "Stella Dallas" and Fox Films studio fame. Others include Earle Foxe, Fritz Feld and two new Fox "finds," Don Terry and Maria Alba. The story was directed by Charles Klein and written for the screen by that teller of vivid tales, Charles Francis Cox.

The issue of the Alberta Gazette of April 16th contains an order-in-council with regard to the open season for bear, providing that "An open season be and is hereby declared for all species of bear in that portion of the province lying to the south of the Crow's Nest branch of the Canadian Pacific Railway and to the west of the range line between Range 26 and 27, west of the fourth meridian, but not including any portion of the Crow's Nest Forest Reserve or the Waterton Park."

FERNIE-FLATHEAD HIGHWAY IMPORTANT

It is to be hoped that the suggestion in an Ottawa despatch to the effect that British Columbia highway authorities are considering construction of a highway from Fernie, on the Red Trail, to the Flathead country in the southeastern part of the province, connecting up with the Alcan. highway from Waterton Lakes National Park and over the backbone of the continent, will prove correct. Such a highway would greatly add to the tourist attractions of Waterton Lakes National Park, and would make the park as important to British Columbia as it is to Alberta at present. Every highway which is built in or through the Rockies Mountains becomes a lodestone for tourists. Money spent on highway construction of that kind will come back a thousand-fold. We hope the people of Fernie will do what they can towards making the Fernie-Flathead highway an actual fact.—Lethbridge Herald.

EXTENSIVE DEVELOPMENT OF TAR SANDS PLANNED

Extensive investigation of the bituminous sand deposits in northern Alberta will be undertaken shortly as the first step in the two-year program of development of this valuable Alberta resource by the Scientific and Industrial Research Council of Alberta. The work will be conducted under the direction of Dr. K. A. Clark, of the University of Alberta, who for the past several years has devoted much time to investigations along this line. The two-year program of tar sands development is an additional feature of the Alberta government's comprehensive plans for northern development. Keen interest is also being shown in the soil survey under the direction of Dr. Wyatt, the water survey carried on by Dr. Ruthford and the ore-Cambrian mineral survey to be conducted by Dr. Cameron during the coming season.

JACK MINER'S BIRTHDAY CARD

"Today (April 10th), I am sixty-four years of age and am going to live to be one hundred or die in the attempt. If it was not for birds, music, flowers and children, I would have no desire to carry on. I am the deadly enemy of intoxicating liquors and always will be. I am far more interested in any man's Christianity than I am in his religion. If my Christianity is not stronger than my politics I have no Christianity. Let sunshine and cheer banish sadness and fear and everlasting life start right here."

JIM'S CORNER

We carry a line of paper to meet the requirements of every profession. Here they are:

- Surgeon—Tissue.
- Dentist—Gum paper.
- Politician—Kraft.
- C.P.R. Carpenters—Railroad board.
- Prize Fighters—Paste and mill finish.
- Bootleggers—Cases (empty).
- Guns—Blanks.
- Musicians—Half-toned and note heads.
- Reporters—News.
- Stockholders—Bonds.
- Stock Promoters—Light-weight statements.
- Glaiziers—Glassine.
- Half-frozen Blairmores heading for bed—Covers.
- Newly married couples—Kid finish.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor
Serve the church that the church may serve you.

SENIOR SCHOOL at 11 a.m.
JUNIOR SCHOOL at 2 p.m.
PUBLIC WORSHIP at 7:30 p.m.
The minister's subject will be: "Finding the Sunny Side of Life." It is not a choice of dwelling on the shady side of life or on the garbage dump. There is a sunny side where we all may dwell.

COWLEY HAPPENINGS

By the kindness of the local farmers and town men, a "bee" was formed and trees were planted around the Cowley cemetery on Wednesday afternoon, May 1st.

The young wife of Bill Voykin, who died in the Hillcrest hospital, was buried in the Doughboy cemetery, near Lundbreck, on Sunday afternoon. She left an infant son, a few days old. Three doctors were in attendance, but nothing could save her life.

The Cowley Women's Institute held their regular monthly meeting at the home of Mrs. Donald on Thursday evening, when final arrangements were made to beautify the Cowley cemetery. A splendid paper on gardening was given by Mrs. A. J. Snyder.

A whist drive was held in the L.O. O.F. hall on Saturday night last, under the auspices of the Cowley Women's Institute. The prizes were won as follows: ladies' first, Mrs. A. J. Snyder; gentlemen's first, Dick Alexander; while the boobies were awarded to Elsie McKeel and Thomas Shopard.

EPIC OF THE YUKON SHOWN AT BELLEVUE THIS WEEK END

"The Trail of '98," which has certainly set a standard for all northern stories to be made hereafter, is based on a screen adaptation of Robert W. Service's great story of the Klondike gold rush in the declining years of the nineteenth century.

Much of it was filmed in Alaska, the Yukon and other northern points dwelt upon by the author in the internationally famous book. It is said more than fifteen thousand people appear in the various great sequences and that location companies travelled more mileage than necessary to encircle the globe to get these marvelous backgrounds in the various sequences.

The cast, which consists of more than fifty screen players, is headed by such well-known names as Ralph Forbes, Dolores Del Rio, Karl Dane, Harry Carey, Tully Marshall, George Cooper, Tenen Holtz, Russell Simpson, Emily Fitzroy, Cesare Garvina, William Orlanwood, Johnny Downs, E. Allyn Warren, Edward Coxen, Mary Mersch, Doris Lloyd and others. This great epic of the Yukon will be the feature at Bellevue for this week end, with the orchestraphone and sound effects.

A FRESH EGG (?)

TORONTO, April 27.—(Canadian Press).—Margaret Hagat was extracting the last spoonful from her boiled egg at breakfast yesterday when she discovered a well-worn Canadian dime reposing close to the shell at the bottom of her egg. The coin is so worn that no date is discernable.

The fire which has raged in No. 1 East mine at Coal Creek for the past three or four weeks, has been extinguished and the mine resumed operations on Monday of this week.

"UNCLE TOM'S CABIN" HERE THIS WEEK END

For two years "Uncle Tom's Cabin" has been in the making. It has cost the Universal company nearly two million dollars and its location trips have covered the United States from Maine to California and from New Orleans to Saranac, N.Y. "Uncle Tom's Cabin" is Universal's supreme production effort. On Friday and Saturday of this week this great picture will be shown at the Orpheum theatre.

There is significance in a super picture of "Uncle Tom's Cabin" appearing in the year 1927. It is the 75th anniversary of the first playing on any stage of the play which has so far outdistanced any other product of the theatre that it makes its nearest competitor look like an also-ran. The run at the Central Theatre of the most dramatic, costly and splendid picture that Universal ever made, will fittingly celebrate that 75th anniversary. But the special significance of this production is that it is the last word in an "Uncle Tom's Cabin" show; for this is not the first time that "Uncle Tom's Cabin" has been made for the movies. It was a favorite subject with the actors of the earliest two-reel masterpieces, and Harry Pollard himself, the man whose screen ambition is realized in this gigantic task, made a version twelve years ago in four reels that he fondly hoped would be the last word. In it he played Uncle Tom and Marguerita Fischer, who plays Eliza in this production, was the Topsy of 1913.

WORK ON B.C. HIGHWAY TO ALBERTA BOUNDARY STARTS

FERNIE, May 2.—A Public Works camp has been established at Crow's Nest for the purpose of building the proposed road from the Alberta boundary westerly to Bullhead Prairie, a distance of about three-quarters of a mile. Engineer Alfred Cummings is laying out the grades for this road.

This new section will eliminate the narrow, dangerous portion of the road now existing above the C.P.R. tracks. The building of this road will involve a considerable amount of rock work, and when finished will be 18 feet wide. It will be protected on the outer side by a guard wall two feet high, built of stone, along the most dangerous portions.

On the Alberta side the Public Works Department has under construction a new road which meets this B.C. road at the boundary and extends to the finished portion of the Alberta road at Crow's Nest Lake. The building of this is well under way.

This road in both provinces follows generally the old route and when completed will provide a safe, easy thoroughfare over what was formerly the worst section of road on the entire Crow's Nest route.

The driver of a sedan car, who was plainly out of his elements in city traffic, attempted to turn around in the middle of a block, and was sideswiped and upset by a hook and ladder fire truck on its way to answer a call.

Striding over to the overturned vehicle, a traffic officer poked his head through the broken window and demanded: "What do you mean by blockin' traffic like this? 'Cmon outta there; you're pinched!" "You let him alone," said a female voice from the back seat. "How did we know them drunken painters was going to run into us?"

Technical Difference

Judge: "I cannot conceive a man, more cowardly act than yours. You have left your wife. Do you realize that you are a deserter?" Sam: "Judge, if you knew dat lady as well as Ah does you wouldn't call me no deserter. Judge, I see a refugee."

The L.O.E. held a successful sale of home cooking, tea, etc., in the Elks' hall on Saturday afternoon last.

IMPROPER FRACTIONS.

California has an automobile for every two and a half persons, says an exchange. The two are the passengers.

The man who whispers down the well About the goods he has to sell, Will never live to make the dollars Like the man who climbs the 'ree and hollers.

PEARLS FROM HERRING

Ottawa, May 1.—Pearls from Canadian herring? Nonsense! Not nonsense at all. There is many a string of artificial pearls worn for adornment in North America that came from the scales of herring caught by Canadian fishermen in Canadian waters.

The presence of crystals of guanine on the scales of herring is the explanation, for from these crystals there is manufactured pearl essence which, in turn, is manufactured into imitation pearls.

Reports of the Fisheries Branch at Ottawa show the manufacture of pearl essence from the scales of the humble herring as one of the interesting by-product operations of Canada's fishing industry, and one which is likely to become of increasing value. So far the production of the essence is carried on only in southern New Brunswick, but herring scales for use in its manufacture are also gathered to some extent on the British Columbia coast. In 1927, for example, 1000 hundredweight of scales were marketed by British Columbia fishermen. In the same year, 1820 hundredweight were marketed in New Brunswick for the manufacture into pearl essence. The return to the fishermen in the two provinces was \$10,281, which is not a very large sum, it is true, but is a fairly tidy amount to receive for something which a few years ago was a waste and nuisance.

In producing the pearl essence, the herring are scaled and the scales are then put through a special process by which the guanine crystals are freed. These crystals are held in suspension in ammonia and the pearl essence results. At present, the final processes of manufacturing the pearls are not carried on in Canada, but the essence is exported to the United States. The pearls have won considerable favor, and there is likely to be increasing attention to the business on Canadian

coasts.

IMMORAL LITERATURE

The hectic discussions on the "I'm Alone" case, have produced the argument that Canada should co-operate with the United States in stemming the flow of Canadian liquor across the border. They consider that Canada by permitting the American citizen to get Canadian liquor is undermining his morale. There may be truth in the argument. But how about the reverse side. Canadian youth is being corrupted quite as surely by the flood of low and demoralizing literature which pours into Canada from across the line. The highest types of American journals and the lowest, alike, have free entry. But which is more widely read? Ask any newsdealer.

The National Council of Education in Vancouver, in discussing this alarming influence on Canadian youth, chose at random a Vancouver newspaper, and by means of moving pictures presented to the Council the publications sold and their relative sales value. The evidence was sufficiently shameful. Many of the magazines and newspapers having greatest sales featured immorality, sensuality, violence and crime.

Editorial writers through Canada are urging that the government take instant action in stemming this flood of literature before national spirit and all regard for honor and ideals become blurred.

The Hanna Herald asks pertinently: "Are we to continue to allow a situation infinitely more important to Canada than the sinking of a hundred 'I'm Alone's to continue without official attention? Ottawa should heed the handwriting on the wall, lest this become a national issue, overthrowing a government so unimpaired of national safety."—Vulcan Advocate.

Local and General Items

An extension is to be made to the public school building at Jasper, to cost in the neighborhood of \$30,000.

Between six and seven inches of new snow covered the ground in this district on Tuesday morning.

Maurice Bond arrived home from Nanion on Monday morning, after an absence of several months.

Teacher: "If you stand facing the north, what have you on your left hand?" Billie Stewart: "Fingers."

Rev. Harry Peters, formerly of Bellevue, now of Hardisty, Alberta, is to become pastor of the United Church at Foxwarren, Manitoba.

A hospital is to be built at Jasper at a cost of \$62,000, to be financed jointly by the Catholic church and the Canadian National Railway.

A local business firm that orders printing from outside of town that can just as well be procured at home is not deserving of your patronage.

McLaren Lumber Company's sawmill here started operations on Tuesday of last week. With an immense supply of logs available, a record season's cut is expected.

A shark's egg, averaging about two inches wide by two and three-quarter inches long, is provided with a leather covering almost as elastic as rubber. It is pure black in color.

The local officers of The Salvation Army desire through The Enterprise to thank their many friends here and throughout the district for the very hearty support given their annual Self-Denial campaign.

W. K. Hyslop left during the week for Waterton Park, where he will operate a general store for the summer season in the premises formerly occupied by Maclean's Store and situated next to the dance pavilion.

"Down in Blairmore they call golf the hoof and mouth disease," related the visitor from Lethbridge. "How come?" asked the oldest member of the club. "Because they hoof it all day and mouth all night."—Ferne Free Press.

Radio fans who on Sunday evening picked up Station KDS, heard an excellent orchestral program by the Royal Arcadians, of Salt Lake City. This orchestra, of seven musicians, has been engaged for the dance hall at Waterton Park for the ensuing summer season.

A British military band, while marching, played "The British Grenadiers" for five hours without a rest. It is also reported that an American band played "The Star Spangled Banner" for six hours continuously. But, that's nothing, for along comes a Canadian band and plays "The Maple Leaf Forever."

Mr. D. McLean, who for the past four years or more has been in charge of the government liquor store at Coleman, has been appointed a provincial hotel inspector under the Alberta Liquor Control Act, and will take up his new duties shortly. Mr. and Mrs. McLean will make their headquarters at Drumheller.

Millions of people who have read with interest and pleasure the famous story from the pen of Robert W. Service, "The Trail of '98," in which the author tells the story of the Klondike gold rush, will be glad to learn that the mammoth Metro-Goldwyn-Mayer film version of the celebrated novel will be seen at the Bellevue theatre on Friday and Saturday of this week, with sound effects.

The many local friends of Misses Frances Tompkins and Helen Dutil will be pleased to learn of their progress and success in studies at St. Mary's school, Calgary. In a recent examination of Grade XI, Miss Tompkins headed the list for seven units with a total of 72 marks, while Miss Dutil tied for second with Miss Gertrude Determan in the same class with 70. We hasten to congratulate the kids and hope for their continued success.

Local and General Items

S. Knapman and family motored to Lethbridge and return on Sunday last.

Raymond Blake, of Bellevue, is in training for the Cardston 5-mile marathon on May 24th.

Mrs. S. Fidenato has returned to Bellevue from a six months' visit to her old home in Italy.

Salmon fishing season opened in some of the inland waters of British Columbia on April 15th.

The proper time to have your teeth pulled is when you are drunk. Your teeth are half floated out then.

Following a conviction under the Liquor Control Act, the beer license of the Queen's hotel at Fernie has been cancelled.

The secret of the extra smile being worn by "Teddy" Jones has just leaked out. The stork paid his home a visit recently.

Tried It Again
The small boy was taking part in a local concert. He was only seven years old and recited so well that he was encored.

"Well, Harry, and how did you get on?" asked his proud father, when he returned home.

"Why, I thought I had done all right," replied Harry, "but they made

me do it again."—Galt Reporter.

The wife of a Blairmore Scotchman was taken seriously ill and was rushed to the hospital, where it was decided that an X-Ray was required. Sandy requested that a little delay would permit him to bring the children and they could have a group taken.

FINER THAN EVER and LOWER IN PRICE

THE finer Oldsmobile is more beautiful than ever in appearance—the result of new style refinements and new color combinations now presented in its composite Bodies by Fisher.

The finer Oldsmobile is more luxurious, more comfortable and offers new conveniences for driver and passengers. Roominess is a feature. Seat cushions are deeper and softer. Upholsteries are richer. And the new Fisher adjustable front seat, combined with Oldsmobile's adjustable steering wheel, makes the driving position a matter of individual choice.

The finer Oldsmobile provides even more gratifying and dependable performance. Its big high-compression engine now develops 63 horsepower. Typical of its fine car design, oil is forced directly to the piston-pins through rifle-drilled connecting rods—a feature heretofore characteristic of high-priced cars.

Come in and see this new Oldsmobile—finer than ever—and lower in price.

TO READJUST CAPITALIZATION OF THE C. N. R.

Ottawa.—For the first time since the creation of the National Railway system, the government of the day, through a responsible minister, pledged itself to the policy of readjusting the capitalization of the public owned railway.

In the special committee of the House of Commons which deals with accounts of the National Railways, this question was discussed, and Hon. Charles A. Dunning, minister of railways, stated unequivocally that he regarded the recapitalization of the system as being of "very great importance" and that the government desired at the earliest possible moment to deal with it.

Curiously enough, opposition to the recapitalization of the National Railways arose immediately from conservative members of the committee, R. B. Harcourt, Conservative member for York-Sunbury, who has taken a leading part in the work of the committee, at once asserted that the carrying out of such a policy would bring demands for reductions in rates. He thought this was a very strong argument against any action being taken.

Mr. Dunning and Sir Henry Thornton, however, held out for the recapitalization, pointing out the immense advantage which would follow and asserting that only in this way could Parliament deal justly by the able and conscientious officials who are endeavoring to make the system a complete success and who find that their best efforts avail nothing in overcoming the needs of a huge, unwieldy and unjustifiable capitalization.

Mr. Dunning introduced the subject and in the course of his remarks made it quite clear that the action probably would have been taken this session had it not been for the intervention of junior shareholders of the old Grand Trunk Railway, who are seeking the right to sue the government for compensation on account of their securities.

He failed to inform the committee as to whether or not the government would permit these shareholders to take action in the courts; but it is commonly believed that a fiat will be issued and the case carried to the privy council.

Increase in Manufacturing

Products Of Prairie Plants Last Year Much Greater

Winnipeg.—Manufactured products of the prairie during the past year exceeded the sum of \$327,000,000 in value, according to J. W. Ackland, retiring chairman of the prairie division of the Canadian Manufacturers' Association, at the annual meeting of the association. The utilization of the mineral wealth of northern Manitoba and Saskatchewan, and exploitation of Alberta's oil resources promise tremendous increases in the industrial output in the three central provinces, he stated.

Starts Schedule May 19

Winnipeg, Man.—The Confederation Canadian National Railways crack passenger train operating from Toronto to Vancouver by way of Winnipeg, Regina, Saskatoon, and Edmonton, will go into service on May 19 from the east and on May 21 from the west. This train replaces the National which in the winter months runs between Toronto and Winnipeg.

Receives Fellowship

Saskatoon, Sask.—Dr. William Allen, professor of agricultural economics at the University of Saskatchewan, has had a fellowship conferred on him which will meet the expenses of attending a conference of agricultural economists to be held during August in Devonshire, England.

Spain Guards Against Plague

Madrid.—A royal decree has been issued forbidding the importation of all classes of fresh fruits, plants and trees from Canada, the United States, Japan and New Zealand. The action was taken as a defence measure against insect plague.

Cable Is Restored

Halifax, N.S.—The Halifax and Bermuda cable, which has been down for some time, has been restored, re-establishing direct communication between Canada and the British West Indies, via Bermuda.

W. N. W. 1783

Win Empire Competition

King's Trophy In Rifle Match Goes To South African Cadets

Ottawa, Ont.—Cadets from South Africa won the King's trophy in the rifle match in 1928, which was participated in by 38,000 boys from all parts of the Empire. Canadian cadets won this trophy in 1927, and finished second in 1928. The results have just been made public by the National Rifle Association.

Commenting on Canada's performance in the National Rifle Association report says: "Not only does Canada possess many more brilliant individual shots than any other country but she has a limited number of units capable of achieving very special distinction. When mass efficiency becomes the principal object of the many and fewer, low scores have been included in her national team, the premier prize, the King's trophy will return to the Dominion."

While Canadian boys have lost the King's trophy they have had other remarkable successes. They won 82 silver medals which are awarded for scores of 98 and 100 points, and 153 bronze medals for scores of 97 and 98. The rest of the empire combined won a total of only 124 of these medals.

Will Perform Election Duties

King George Desires To Carry Out Usual Royal Functions

Bognor, Sussex, England.—The policy progress being made by the King is being met by the drafting of tentative plans for future functions, and there is every prospect these will be carried out. Transfer of the court from Bognor to Windsor Castle before West Sunday, May 10, is contemplated in view of His Majesty's expressed desire to carry out the usual royal functions connected with a general election. The King will remain at Windsor Castle until the political situation permits him to go to Sandringham in Norfolk, where the east coast sea air has always agreed with His Majesty.

It is being suggested that a thanksgiving service for the King's recovery should be held in Westminster Abbey at the end of July, with similar services in other large cities.

Convict Train Travels West

Seventy Prisoners Are Sent To Stony Mountain Penitentiary

Winnipeg.—The convict train bearing 70 prisoners from Kingston, Ont., to western penitentiaries, reached here recently. Seventy prisoners were immediately transferred to Stony Mountain penitentiary, a few miles north of Winnipeg, while the remaining hundred continued the westward journey to Prince Albert penitentiary.

The convict train consisted of four steel coaches, the windows of which were heavily barred. Guards armed with rifles were aboard the train, while during the stop here forty provincial policemen, also armed with carbines, stood guard.

The journey from the penitentiary at Kingston was uneventful, according to the prison guards.

Lucky Gold Strike

Ontario Farmer Makes Discovery While Digging Post Hole

Matheson, Ont.—W. J. Rhoades, Beatty township farmer, has just finished digging a \$60,000 post hole.

As a pioneer on the edge of the northern clay belt, he decided to fence in more of his property. He used dynamite to dig his post holes. The first blast uncovered free gold. Rhoades sold his find for \$60,000 cash and a large interest in the property.

Large Liners Projected

London, England.—The Cunard line is considering the construction of two new trans-Atlantic vessels which would be the largest in the world, it was stated on reliable authority. The liners would have a displacement of 75,000 tons, length of more than 1,000 feet and breadth of more than 105 feet. They would be equipped with 150,000 horsepower engines.

Message For American People

San Francisco, Calif.—Sir Rabindranath Tagore, Indian poet and philosopher, called aboard the liner "Taylo Maru" for India, via Hong Kong. His final words to the American public were the expression of a wish that his people "would rise above indignities and insults to impart some beauty to the ugly picture of the industrialization of the West."

Airmen Killed At Toronto

Machine Went Out Of Control and Crashed Near Flying Field

Toronto.—Noel Marshall and William MacKenzie, residents of Toronto, were killed when their aeroplane went out of control and crashed near the Leaside flying field.

It was reported that MacKenzie was a pilot's certificate, was in charge of the Gypsy Moth plane, with Marshall, a qualified pilot, as a passenger.

The plane was said to have been but 150 feet from the ground when it went out of control and crashed with such force the engine burst itself.

Calendar Expert At Ottawa

M. B. Cotworth Discussed Matter With Government Members

Ottawa.—To aid in the suggested establishment of a national committee in Canada to consider proposed calendar reform and its effect on the Dominion, M. B. Cotworth, of Rochelle, N.Y., originator of the 13-month calendar idea, has paid a special visit to Ottawa. Mr. Cotworth conferred with Dr. O. D. Skelton, under-secretary of state for external affairs, and H. H. Coats, Dominion statistician, respecting his proposition.

ITALY DEMANDS EQUALITY AS TO NAVAL POWER

Geneva.—The problem of navy parity between France and Italy loomed out as a real which might imperil the success of any five-power naval conference to reduce armaments.

Premier Mussolini is reported here as firm as a rock in demanding parity for Italy for France, both on land and sea. While France apparently fails to see the justice of such demands.

France thinks her communications with her extensive colonial possessions and her mainland open to two oceans are sufficient reasons for her having naval forces superior to Italy's.

This problem of satisfying Italy at least on paper is worrying delegates to the preparatory disarmament commission. Some are beginning to worry whether a real advance on the naval problem could not best be made by establishing first of all an understanding between the United States and Great Britain.

The Associated Press correspondent has received the impression that France would place no obstacle in the way of such a preliminary understanding if it did not affect her position in relation to other continental powers. A high French authority voiced recent enthusiastic approval of the speech of Hugh B. Gibson recently, because it gave a magnificent impetus to reduction in armaments as a whole.

This personality explained that France desired to hasten general reduction in armaments and hoped that delegates would even be able to submit a draft treaty to the September assembly of the League of Nations, thus permitting an international conference by 1930. This would involve a second session of the preparatory disarmament commission during the present summer, until which time he thought the naval question had better be adjourned.

MORE NORSEMEN FOR THE WEST

This photograph was taken at Winnipeg after the arrival of the first immigrant special train this season, over the Canadian National Railways, March 20. There were 206 broad-shouldered Scandinavians in a total of 369 arrivals, which included 22 British settlers. Two trains, which followed the first special a day later, brought the total of new-comers up to nearly one thousand. At least half were Scandinavians. All the immigrants have been placed by the Canadian National Railways Colonization Department.

A CHARMING PRINCESS

Princess Ingrid, only daughter of the Crown Prince Gustaf Adolf, of Sweden, whose engagement to the Princess Frederica, of Denmark, has been reported from Stockholm.

Answers King's Message

Viscount Willingdon Sends Reply On Behalf Of Dominion

Ottawa.—On behalf of the Canadian people, His Excellency Viscount Willingdon, governor-general of Canada, despatched a message to His Majesty King George, expressing joy over the "glad tidings" contained in the affectionate cable sent by His Majesty to his subjects throughout the Empire.

The message follows: "Your Majesty's word will be received with the greatest joy and gladness by your loyal people of Canada on whose behalf I beg-very respectfully to thank you for the glad tidings contained in your beautiful message. During the past months we have been filled with anxiety and sympathy over your majesty's serious illness. We can now rejoice that your majesty is well on the way to recovery and that his strain of anxiety which has enlisted our deepest sympathy. We trust before long to have the opportunity of joining with all your majesty's subjects throughout the Empire in a prayer of thanksgiving for the recovery of your majesty and in a profound hope your majesty may long be spared to reign over your loyal and devoted subjects."

Succeeds Lord Revelstoke

Paris.—Sir Charles Addis, director of the Bank of England, and noted English financial expert, has been appointed to succeed Lord Revelstoke as head of the British delegation at the conference on reparations. Lord Revelstoke died suddenly on April 29, weakened by the commencing attempts to reach some settlement of the tangled problem of German payments.

Gibson's Proposals

Geneva.—It was understood here that Ambassador Hugh B. Gibson, American plenipotentiary at the preparatory disarmament conference, would prepare a memorandum outlining United States disarmament proposals and hand this later to delegations of the great powers.

British Election In May

London, England.—Premier Baldwin announced in the House of Commons recently the prorogation and dissolution of parliament for May 10, nominations for seats in the House on May 20, and polling on May 30.

Germany Wants Aerial Bombs Abolished

But Objections Were Raised By Several Countries

Geneva.—The German proposal to abolish the use of aerial bombs in warfare was defeated before the League's preparatory commission on disarmament. Only five countries were in its favor—Germany, Sweden, Holland, China and Russia. Those against it, including Canada, the U.S. and Great Britain, registered their objections with a rider that a negative vote was not to be interpreted as in any way authorizing the use of aerial bombs against civil populations.

Count Von Bernstorff, of Germany, pointed out the toll that could be exacted by bombing planes over Paris, Berlin and London, and said that this method of warfare was horrible and cowardly, because the combatants were protected by defensive appliances.

P. Sokal, of Poland, said no one would deny the horror of such methods but the conference had not reached that point and under the Kellogg anti-war pact was not likely to reach it. When war had been outlawed, it was logical to begin codifying rules of war, he remarked. M. Litvinoff, of the Soviet, here interpolated that Poland was among those who last year rejected the Russian proposals for complete abolition of armaments.

Agrees With Gibson's Speech

British Government Shares Wishes Of U.S. On Disarmament

London, England.—Sir Austen Chamberlain, British foreign secretary, told the House of Commons that the British government shared fully the hope and wishes of the United States government on disarmament as set forth in Ambassador Gibson's speech at Geneva.

"The government desired me to take this opportunity to express its warm appreciation of the cordial conciliatory spirit shown by the American delegates and give assurances on its behalf that in the same spirit and with the most earnest wish to reach a complete understanding it will consider the American suggestions," declared Sir Austen.

Sir Austen made his statement in answer to a question by Commander Joseph Kenworthy, Labor, whether Ambassador Gibson's speech had been called to his attention and what response his majesty's government proposed.

ANTI-SMUGGLING TREATY MAY GO TO ARBITRATION

Washington.—Terminating the diplomatic correspondence on the "Tm Alone" case, Canada replied to the United States rejoinder to the protest against the sinking by coast guards' gun fire on the high seas, of the Canadian schooner suspected of conspiracy against American liquor laws.

Hon. Vincent Massey, the Canadian minister, delivered to Secretary Henry L. Stimson, a note which is expected to reveal the Dominion's attitude to the "Tm Alone" case in particular, and the scope of the anti-smuggling treaty of 1924 in general. It is generally accepted here that the United States wants the case to go to arbitration. It is expected Canada will accept. Arbitration probably will proceed under the provision of the 1924 treaty itself, which leaves any dispute over the seizure of a ship to a tribunal composed of representatives of both countries.

Because of the whole question of the right of "hot and continuous pursuit" under the treaty will be involved, the importance of the negotiations will transcend the single case of the "Tm Alone."

The British government is sitting back and letting Canada fight the case because the ship is of Canadian registry. But the decision will affect some far-reaching questions of territorial waters and United States rights under the special treaty to claim the 12-mile limit specified in its own tariff act.

The treaty was signed by Great Britain, and technically London would have the right to say who would represent the British Empire on the arbitration board. It is likely that some prominent Canadian will be appointed, however, and he will serve for the Empire.

It is suggested here that the former secretary of state, Frank B. Kellogg, may represent the United States.

H.B. STRAITS ARE OPEN FOR FOUR MONTHS OF YEAR

Ottawa.—Hudson Strait will be safe for navigation for at least four months in the year. The report of the Hudson Strait expedition for 1927-28 tabled in the House of Commons gives the probable period as from the middle of July to the middle of November.

In his report N. B. McLean, officer in charge, says in part: "Taking July 19 as the opening date for the Strait, and November 10 when ice was first reported at Nottingham in 1927, as the closing date, we get a season of 120 days or practically four months, during which commercial vessels could have navigated with safety and without assistance of ice breakers."

A further indefinite period would be added, he continues, with the use of ice breakers.

Some doubt is expressed in the report that two years' observations are sufficient on which to base any accurate statement on the length of the navigation season.

The extremes of temperature are given as 18 degrees Fahrenheit below zero at Nottingham in January, and 50 degrees above zero in July at Wakeham Bay.

Fog was noted on 39 days and on 14 of these it was dense. Many large icebergs were seen. They drifted down through Davis Strait, were carried west along the north shore by the current and eventually met the easterly current on the south shore which took them into the Atlantic.

Three dozen finding stations in addition to those at Cape Hope, Advance, and Nottingham Island are recommended, and two ice-breakers, one based at Fort Churchill and the other at a suitable harbor in the strait.

"The knowledge that an ice breaker is available if necessary," the report states, "gives confidence to masters, owners and shipping interests generally."

Other recommendations deal with the straits and providing a fuel base.

Observe Anzac Day

Australia Commemorated Landing Of Troops At Gallipoli

Sydney, N.S.W.—Anzac Day, set aside to mark the famous landing of the Australians and New Zealand troops at Gallipoli with the aid of strong naval forces on April 25, 1915, was fittingly commemorated in Australia and New Zealand. The outstanding New South Wales feature was the march of 20,000 ex-service men at Sydney.

At Canberra, the Federal capital, an impressive memorial service was attended by Premier Stanley Bruce and his cabinet, while Lord Stonehaven, Governor-General of Australia, unveiled the commemorative stone of Australia's war memorial which will cost \$125,000.

Typhoid Fever At The Pas

Serious Epidemic Believed To Be Caused By Water

The Pas, Man.—Active measures to stamp out the outbreak of typhoid fever, which already has taken a toll of three lives, and stricken more than a score of persons in the little northern railway town at Mile 227, on the Hudson Bay Railway, are under way. Four doctors now are in the town; all residents have been inoculated, and the water supply has been chlorinated. Impure water is believed to have caused the epidemic. Twelve of the stricken residents of the town have been conveyed to hospital in The Pas, while eight others are confined to the little hospital at Mile 227.

Organize Wheat Pool

Lincoln, Neb.—Wheat-railers of Nebraska and Wyoming to the number of 200 have effected organization of a wheat pool, giving it the name of the Middle West Market Association non-stock co-operative. The pool was set up to represent 15,000 grain raisers in the two states and was declared to be the largest in the middle west.

Air Survey Completed

The Pas, Man.—Arriving here, Captain Charles Suttou, pilot of the Empire, have just completed an 8,000-mile aerial voyage which took them into the northern wilds, far beyond Fort Churchill. Motion pictures of the northern scenes and of the inhabitants of the straits were taken. This was the main objective of the journey.
